FUNDS TO COMPLETE TELSTAR BUILDING PROJECT EXPLAINED

It has been learned that some confusion has arisen in the mind of some area citizens as to where the \$33,000 came from to complete certain projects at Telstar Regional High School.

At the meeting of the building committee of the S. A. D. 44 board of directors on March 30, Supt. Ralph Ryder revealed that there was a balance of \$12,568.89 left in the New School building account. Out of this figure there were commitments of \$4,200 for a forced draft fan in the boiler room, and \$350 for plaques at the high school. With these commitments subtracted, there remained \$8,018.89 available.

This balance of \$8,018.89, plus \$27,000 remaining to be borrowed of the sum authorized by the original bond referendum for construction of the new high school, makes a total of \$35,018.89 available. The board of directors gave their permission to borrow the remaining \$27,000 authorized at the Nov. 17, 1969 meeting.

At their March 30 meeting the building committee authorized the expenditure of \$11,925 of the \$35,018.89 available. Projects authorized at Telstar were: completion of baseball field, \$500; baseball back stop, \$225; music room shelving, \$400; stage speaker system, \$200; complete stage lighting, \$1,500; land clearing around building and ditching of lower field, \$3,000; parking

COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

We have not received the fishing law books as yet. According to the papers other places have theirs. We have written to Augusta but have not had a reply.

Our dirt roads are becoming muddy now that the weather is milder. The heavy rains of last fall and winter caused the frost to penetrate deeper than usual. There is little that can be done until the roads dry out enough to get trucks on them.

A representative of the Corps of Engineers was in town Tuesday inspecting the Surface Drain across Main Street. We have applied for aid through the Flood Disaster Relief to assist in repairing the drain. Instead of flowing under the street the water now goes down Main Street. Part of the top has caved in, evidently restricting the flow underground. We should find out soon if we are eligible for assistance.

The final plans for the Sewage Disposal System should be completed soon. The tentative completion date was March. As soon as we have the plans we can apply to the Environmental Control Commission for approval to receive Federal and State Funds.

Christian Science
The "process" of mankind that
brings peace can be found in man's
consciousness with God. This ap-
proach is explained in the
Lectures Series on "The Science of At-
tention" to be read in all Christian
Science churches on Sunday, April 19.
The Lecture Series begins with a
Golden Text from John: "God sent
his Son into the world to save
them that believe on him." The world
through this could be saved.
One of the readings from "Science
and Health with Key to the Scriptures"
by Mary Baker Eddy states:
"It could be said that the world
and all that is in it, are made of
God and his Word, and that the
world is made of God and his Word."
The Christian Science Radio Series
"The Science of Attention" is being
read each Sunday over WMAI
Radio, 12:15 p. m. at 12:15 a. m.

DRUG COUNCIL NOTES

Today's article is not compiled
of facts set forth by the clinical
mind of a doctor or a city research
team, or by the dozens of other ways
we get them. It didn't come from
half way across the country, it came
from here, from someone who is
interested enough to want to relate
these experiences, to say, this is
what it's really like.

"Like many others I tried what
was around at the time, it happen-
ed to be acid, LSD. The trip it
was meaningful in some ways
I guess, but the things I saw, so to
speak, and the way I felt, I just
didn't like. No matter what you
have heard, unless you're shooting,
it takes awhile to 'get off'. After the
first couple of hours I had no con-
trol over myself. This was a new
thing so it's hard to describe to
someone who has never tried it. I
knew I was in a building but there
was nothing there. I knew I was
looking for the roof, but there was
only a shadow where it should be.
I could see the air, I could see
sound, I could see feeling. Every-
thing seemed to have substance. I
can't tell you what it was like, it
sounds so crazy now.

"The next scene was mescline.
That tore it, it ripped me apart. Ev-
erything was out of gear, my whole
perspective was out of tune. I was
scared of everything. I shook, oh
man, it was just something else. I
was all foggy for ten days, nothing
made any sense at all. I was
walking down the street talking to
a fire hydrant like it was my best
friend. That was just too much. I
tried to smoke a cigarette and it
was like breathing thru a hole in
my chest. Everything had life, ev-
erything had movement of some
kind. I could never make you see it.
It was awful, I couldn't seem to get
myself together no matter how hard
I tried. It was nowhere, just no-
where that I wanted to be.

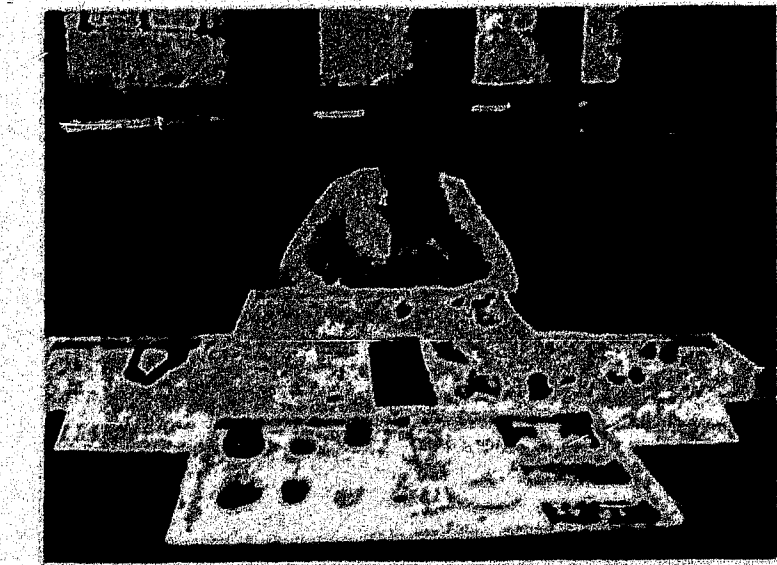

"I tried others, grass and hash,
that sort of stuff, but like anything
else that you do constantly, it got to
be a drag. I'm not saying that I
got the same feeling all the time, it's
just that I'd found out where it was
'at' and I knew it wasn't for me.
I knew that I wasn't getting any-
where that way. I couldn't see my-
self strong out like that all the time.
Sooner or later I knew I had to
face myself. You just can't find real-
ity in a chemical world. I wasn't
getting any answers. I was even for-
getting the questions. I can't say I'm
a better person from all this, I can't

tell you that I did, or didn't get
anything from it. I can say that I
wasn't any further ahead than be-
fore it happened. I didn't know what
I was getting into, I didn't know
what it was all about, nobody else
does either. I know it wasn't all that
great, not for me anyway. There
wasn't anything else going on so
I tried it, that's what a lot of others
do too I guess. I've been clean for a
long time. I hope that what I've said
has helped in some way."

I have written this as it was told.
I need add nothing. If you're up light,
you know it's the truth. It doesn't
have to be that way. If you need it,
the drug council is here to help. A
letter to P. O. Box K, Bethel, will
reach some member at once. Per-
sonal contact will be arranged if
you want it. Questions will be an-

swered in this column. Nobody is
out to get you "busted," nobody is
going to put pressures on you. We
will deal with YOUR "thing," not
quit you about everyone else's.

Our Council is made up of people
from the S. A. D. 44 area. It is not
affiliated with any church or with
the school system. The increase in
drug traffic prompted the formation
of this group.

SHELL COLLECTION ON DIS-
PLAY

Donna Grover, sophomore
at Gould Academy, with her marine
shell collection now on display in the
Gould library.

Donna made her own collection on
beaches at St. Petersburg, Fla.,
during the Christmas vacation peri-
od of this year. Recent storms in this
area had washed in an unusual var-
iety of shells, so that Donna's collec-
tion, which she has identified and
labeled, includes some forty types.
Included in her display of a Sand
Dollar shell is a brochure with the
story of the Holy Symbols attributed
to the shell. Donna has an opened
Sand Dollar with the five white
"peace dove" shells from within
carefully removed in perfect con-
dition. Her attractive display has re-
ceived a lot of attention and com-
ments from students, faculty and vis-
itors.

FURNITURE WORKERS ELECT CONVENTION DELEGATES

Members of Local 77 of the United Furniture Workers of America (AFL-CIO) have elected Recording Secretary Ethel L. Martin and Lloyd Cole of Locke's Mills to represent their local at the Union's Sixteenth Constitutional Convention, which will be held at Hotel New Yorker in New York City from May 18 through May 22.

With more than 200 in attendance from all parts of the nation, the biennial gathering will develop the plans and program that will determine the Union's policies for the next two years.

Labor has been called "the people's lobby." UFWA International President Morris Puzer declared "And our Convention will have the task of determining the best way for our Union to make its full strength felt in this arena."

Among "critical issues" that will challenge the Union's delegates, Puzer cited "the need to counter swollen living costs which rise daily; the need for tax relief for low income families and the need for universal health care."

A group of leaders from the trade union movement, including George Meany, President of the AFL-CIO, the government and the civil rights movement will be invited guests.

TELSTAR R. H. S. NEWS

As the end of this week two groups of Telstar students and their advisors will be flying to Europe for a two week stay. The English students, who have as their advisor Mrs. Katherine Davis, will be visiting London and surrounding areas. At the same time the French students, with their advisor, Mme. Jeanne Thomin-Demarest, will be spending the two weeks in Paris.

The S. A. D. 244 Faculty Club met Monday evening at the Telstar Auditorium. Mr. Peter Brown, president, conducted the business meeting, which included a discussion on parts of the new proposed constitution and a presentation of a slate of new officers by Mrs. Helen Berry, chairman of the nominating committee.

On Saturday, April 11, the Maine State Junior Classical League held its annual convention at Rumford High School. Although not yet members of the League the Telstar Latin Club was invited to send representatives as guests. Telstar Latin Club's members attending were Frances Thurston and Karen Jordan.

Registration began at 9:00 with a coffee hour following. Nomination of officers was the last order of business before lunch.

After lunch there were contests in orthography, vocabulary (levels I & II), and extemporaneous speaking. Exhibits from each club were on display and were judged. Since Telstar has not yet joined, the Bethel club could not participate in the various contests. A skit entitled "The Latin Club's New Year's Party" was presented by the Rumford High School Drama Club.

After a speech was given by a professor of Latin and Greek from the University of Maine, awards were presented for the competitions and the exhibits. Next year's officers were announced and sworn in. The convention adjourned and all left with a feeling of unity among the various Latin Clubs and hope for the continued study of the Latin language. (Contributed by Frances Thurston, Latin Club president.)

FORMER GUIDANCE DIRECTOR PARTICIPATES IN THE PUBLICATION OF A NEW TEXT

Frank H. Glazer, former Director of Guidance in S. A. D. 41 participated in the publication of a new text in guidance for grade four. The text is entitled: "Everywhere We Go." It is published by American Guidance Service, Inc. of Circle Pines, Minnesota.

In addition to Mr. Glazer, the following local administrators and teachers are recognized:

Super. Ralph E. Ryder, Elementary Supervisor Roger A. Spagnardi, Prin Allen W. Mezer and teachers Miss Alice Ballard and Mrs. Alma Young of the Crescent Park School.

The text is designed to be used as a reading text in grade 4 or may be used for individual or group guidance instruction.

To quote from the introduction to the pupils:

"The stories in this book are about boys and girls like you.

Everywhere they go they see new things, get new ideas, find new ways to work and play together.

They are learning to be good at sports. They are trying out interesting hobbies.

Sometimes these boys and girls have problems.

As you read the stories and talk with your classmates about them, you will see what goes on in the busy lives of other people like you. Maybe they will give you some ideas you can use. Maybe you will come up with some better ideas."

The text includes 14 chapters with 74 sub-topics including 300 pages.

At the end of each topic there are related vocabulary words with definitions and list of questions for things to talk about.

In the teacher's edition special instructions are available to guide the instructor in reference to development of a guidance discussion of the subject matter of the text.

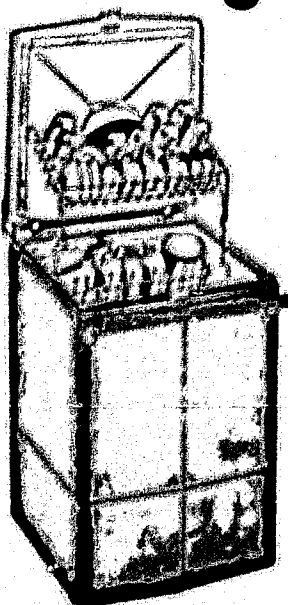

The guidance text was presented to the elementary counselors in Massachusetts at their spring meeting in Wakefield on April 24 and was enthusiastically received by the counselors.

This completes the 9th guidance text Mr. Glazer has participated in the publication of for grades 4-12.

Mary from Bethel attended the 1st Air Force Band Concert at Oxford Hills High School on Friday.

CLUB NEWS FROM THE TRI-COUNTY RIDERS

The regular monthly meeting of Tri-County Riders, Inc. was held Wednesday evening, April 8, at the Poland Town Library, with a good membership turnout.

Show chairman, Paul Fuller reported on the progress of the club-sponsored horse show to be held at the Norway fair grounds on July 5.

The trail ride committee has completed this year's activity schedule and distributed printed cards showing each. The kick-off ride of the season is on April 26 at Trudy Morse's in North Norway. The committee has come up with a season full of events including two holiday weekends of camping and riding. These both are three day weekends being over Memorial and Labor Day. The ride over Memorial is an affiliated ride being based at the Norway fairgrounds; also during the season we have a two day ride at John Rand's in Harrison. This guarantees plenty of mileage. The moonlight ride will be held at Ernest Dean's in Rockfield, and the location for this year's barbecue is yet to be decided. They have come up with the usual busy schedule of Sunday rides on top of the other events.

Next month's regular meeting, May 13, will be held next door, at the Poland Town Hall to accommodate a pot luck supper. This will be held at 8:30 p. m. followed by the business meeting. To top off the evening, we will have a guest speaker as well as some very interesting slides or movies. It is hoped that there

will be a large turnout. All members are urged to bring guests who might find interest in the evening's activities.

Tri-County Riders, Inc. is headed for an action-packed, fun-filled Spring, Summer and Fall. Anyone interested in obtaining more information on the Club may contact Trudy Morse, R. F. D. Norway, Maine—Joan Olson, 25 Falmouth Rd., Falmouth, Maine; Norman Damon, Rockfield, Maine; or Dwight Mills, Box 175, Locke Mill, Maine. Our monthly meetings are held at 8 p. m. on the second Wednesday of each month at the Poland Town Library and are always open to anyone who would care to sit in as a guest. We like to start the riding season with plenty of new members.

Robert L. Blake has entered the Stephens Memorial Hospital and will undergo surgery on Friday.

Mrs. Leona Flint and Miss Julia Brown have returned from St. Louis Missouri where they have been visiting Mr. and Mrs. Daniel Hatch for the past week.

Mr. and Mrs. Glenn Bangs entertained a family gathering Saturday evening in honor of April birthdays of Earl and Ede Davis, Stan Davis and Glenn Bangs. Those present were Mr. and Mrs. Earl Davis, Mr. and Mrs. Robert Keniston and sons, Mr. and Mrs. Stanley Davis and family.

NOISE CAN SERIOUSLY AFFECT YOUR HEARING

The decibel measures the smallest amount of sound which the human ear can distinguish. According to the American Medical Association, anyone subjected to more than a couple of hours per day of noise which is in excess of 90 decibels should use an ear protection device.

But, even a lawn mower can cause a temporary loss of hearing, as well as the electric amplifier used by so many teenage musical groups. Recent studies show that 120 decibels or more are common with amplified rock music. The first sign of hearing loss is the high pitched sounds. The next tell-tale sign is complaining about the loss of hearing of TV or a stereo. If you suspect a loss of hearing have your doctor give you a hearing test.
